

Environment

At Schneider Blöcker, we do not merely believe in delivering profits to shareholders and stakeholders but achieve in a responsible manner. Our business needs to address issues that influence the company's impact on the society and the environment. We stand by this ideology of contribution and maintaining sustainable growth.

As concrete guidelines and objectives for managing Schneider Blöcker's environmental performance, we should:

- Comply with the requirements of environmental legislations and approved code of practice across the company.
- Consider opportunities and risks from an environmental perspective when making business decisions.
- Strive for reduced use of energy in all parts of the business.
- Consider the environment when purchasing goods and services as well as when travelling and choosing transportation.
- Ensure secure and responsible handling of chemicals.
- Prevent and limit the amount of water and waste and continuously improve waste management.
- Apply an Environment Management System in accordance with the International standard ISO 14001
- Engage and educate our employees in environmental impact issues and create an atmosphere of continuous improvement.
- Implement policies and guidelines in the company through digital means where possible, to prevent unnecessary use of paper.
